MARTINEZ TRUJILLO

American Popular Music Simon and Schuster

This colorful history of Pancho Villa as a propagandist tells how the legendary guerrilla waged war not only on the battlefield but also in the mass media, where he promoted his foreign policy of friendship with the United States in a bid to gain American backing for the Mexican Revolution between 1913 and 1915. Mark Cronlund Anderson explores issues of race, identity, and the power of the mass media to explain how Villa dueled with his archrivals, Mexican dictator Victoriano Huerta and Villa's ostensible colleague-in-arms, Venustiano Carranza, using a sophisticated public-relations machine. Villa ultimately lost the military struggle but won the propaganda war by successfully casting himself as stereotypically "American" -- clever, fearless, modest, humble, self-reliant, and a champion of the downtrodden -- while representing his rivals as backward, racially inferior, and morally impaired. Examining the diplomatic correspondence, news reports, and even the political cartoons of the time, Anderson reveals how Villa set America's media agendas and influenced U.S. foreign policy -- all the way to the Woodrow Wilson White House.

Democracy, Banking, and Currency Elsevier Health Sciences

Choral music represented an important part of American cultural life during the nineteenth century, whether integral to worship or merely for entertainment. Despite this history, choral music remains one of the more neglected studies in the scholarly community. In an effort to fill this gap, N. Lee Orr and W. Dan Hardin offer a new approach to the study of choral music by mapping out and bringing bibliographical control to this expansive and challenging field of study. Their unique guide focuses on literature related to choral music in the United States from the end of the second decade of the nineteenth century through the earlier part of the twentieth century. *Choral Music in Nineteenth-Century America* explores the entire range of choral music conceived, written, published, rehearsed, and performed by an ensemble of singers gathered specifically to present the music before an audience or congregation. The guide expertly sifts through the extensive literature to cite the most notable sources for study and provides individual chapters on the leading nineteenth-century composers who were instrumental in the development of choral music.

Stargirl Basic Books

The provocative and authoritative history of the origins of Christian America in the New Deal era We're often told that the United States is, was, and always has been a Christian nation. But in *One Nation Under God*, historian Kevin M. Kruse reveals that the belief that America is fundamentally and formally Christian originated in the 1930s. To fight the "slavery" of FDR's New Deal, businessmen enlisted religious activists in a campaign for "freedom under God" that culminated in the election of their ally Dwight Eisenhower in 1952. The new president revolutionized the role of religion in American politics. He inaugurated new traditions like the National Prayer Breakfast, as Congress added the phrase "under God" to the Pledge of Allegiance and made "In God We Trust" the country's first official motto. Church membership soon soared to an all-time high of 69 percent. Americans across the religious and political spectrum agreed that their country was "one nation under God." Provocative and authoritative, *One Nation Under God* reveals how an unholy alliance of money, religion, and politics created a false origin story that continues to define and divide American politics to this day.

Racism, Antiracism, and You Princeton University Press

The long-awaited second volume of the two-volume work on syntax from a functional-typological perspective. Grammar is viewed as a non-arbitrary language-processing device, to be understood in terms of the various substantive parameters relevant to language: Communicative function, cognitive processing, socio-culture and neuro-biology. Distortions in this complex yet highly iconic code are due to conflicting functional requirements, most commonly introduced into the code through the course of diachronic change. Cross-linguistic variation within each functional domain is highly constrained, and yields a coherent typology of the most natural ways the same communicative function can be performed. The volume covers the syntax of complex clauses, and is organized according to the following plan: Chapter 12: "Noun phrases" Chapter 13: "Verbal complements" Chapter 14: "Voice and de-transitivization" Chapter 15: "Relative clauses" Chapter 16: "Contrastive focus constructions" Chapter 17: "Marked topic constructions" Chapter 18: "Non-declarative speech acts" Chapter 19: "The grammar of interclausal coherence" Chapter 20: "The grammar of referential coherence as mental processing instructions" Chapter 21: "Markedness and iconicity in syntax".

This text provides an overview of American music from Tin Pan Alley song through the close of the 20th century.

How the War Came to America Pearson Prentice Hall

"Stony the Road presents a bracing alternative to Trump-era white nationalism. . . . In our current politics we recognize African-American history—the spot under our country's rug where the terrorism and injustices of white supremacy are habitually swept. Stony the Road lifts the rug." —Nell Irvin Painter, *New York Times* Book Review A profound new rendering of the struggle by African-Americans for equality after the Civil War and the violent counter-revolution that resubjugated them, by the bestselling author of *The Black Church*. The abolition of slavery in the aftermath of the Civil War is a familiar story, as is the civil rights revolution that transformed the nation after World War II. But the century in between remains a mystery: if emancipation sparked "a new birth of freedom" in Lincoln's America, why was it necessary to march in Martin Luther King, Jr.'s America? In this new book, Henry Louis Gates, Jr., one of our leading chroniclers of the African-American experience, seeks to answer that question in a history that moves from the Reconstruction Era to the "nadir" of the African-American experience under Jim Crow, through to World War I and the Harlem Renaissance. Through his close reading of the visual culture of this tragic era, Gates reveals the many faces of Jim Crow and how, together, they reinforced a stark color line between white and black Americans. Bringing a lifetime of wisdom to bear as a scholar, filmmaker, and public intellectual, Gates uncovers the roots of structural racism in our own time, while showing how

African Americans after slavery combatted it by articulating a vision of a "New Negro" to force the nation to recognize their humanity and unique contributions to America as it hurtled toward the modern age. The story Gates tells begins with great hope, with the Emancipation Proclamation, Union victory, and the liberation of nearly 4 million enslaved African-Americans. Until 1877, the federal government, goaded by the activism of Frederick Douglass and many others, tried at various turns to sustain their new rights. But the terror unleashed by white paramilitary groups in the former Confederacy, combined with deteriorating economic conditions and a loss of Northern will, restored "home rule" to the South. The retreat from Reconstruction was followed by one of the most violent periods in our history, with thousands of black people murdered or lynched and many more afflicted by the degrading impositions of Jim Crow segregation. An essential tour through one of America's fundamental historical tragedies, *Stony the Road* is also a story of heroic resistance, as figures such as W. E. B. Du Bois and Ida B. Wells fought to create a counter-narrative, and culture, inside the lion's mouth. As sobering as this tale is, it also has within it the inspiration that comes with encountering the hopes our ancestors advanced against the longest odds.

Stony the Road Scholastic Inc.

In a heart-wrenching, candid autobiography, a human rights activist offers a firsthand account of war from the perspective of a former child soldier, detailing the violent civil war that wracked his native Sierra Leone and the government forces that transformed a gentle young boy into a killer as a member of the army. 75,000 first printing.

[The Commanding Heights](#) Phoenix Classics Ebooks

Tillmann C. Lauk discusses law-making at the European level and argues that problems with EU legislation, banking regulation and currency debasement are due to a lack of democratic control. He insists on the need for radical reform both of banking and of international money and makes an important contribution to the debate on the future of finance.

America was founded on certain First Principles which are the critical underpinnings of our free society: the rule of law, unalienable rights, equality, the Social Compact, and limited government. Supported by extensive research and fuelled by a true passion and respect for the profound vision of America's Founding Fathers, Michael Warren proves how they have guided us in our journey to become the greatest and most free nation in the world. He exposes how our knowledge of our principles and history has eroded to the point of near non-existence—and that this is a threat to our survival much more serious than what may come to us from outside our borders. Warren proposes thoughtful and needed reforms to enable America to rise above the impending doom from within and reclaim the greatness envisioned by the Founding Fathers.

Learn About the United States: Quick Civics Lessons for the Naturalization Test (Revised February, 2019) Springer

Finally, a book that offers a practical yet well-researched guide for practitioners seeking to hone the way they show up in citizen space. At a time when public trust in institutions is at its lowest, expectations of those institutions to make people well, knowledgeable, and secure are rapidly increasing. These expectations are unrealistic, causing disenchantment and disengagement among citizens and increasing levels of burnout among many professionals. Rekindling Democracy is not just a practical guide; it goes further in setting out a manifesto for a more equitable social contract to address these issues. Rekindling Democracy argues convincingly that industrialized countries are suffering through a democratic inversion, where the doctor is assumed to be the primary producer of health, the teacher of education, the police officer of safety, and the politician of democracy. Through just the right blend of storytelling, research, and original ideas, Russell argues instead that in a functioning democracy the role of the professionals ought to be defined as that which happens after the important work of citizens is done. The primary role of the twenty-first-century practitioner therefore is not a deliverer of top-down services, but a precipitator of more active citizenship and community building.

[The Complete Idiot's Guide to American History, 5th Edition](#) Knopf Books for Young Readers

The #1 New York Times bestseller! This chapter book edition of the #1 New York Times bestseller by luminaries Ibram X. Kendi and Jason Reynolds is an essential introduction to the history of racism and antiracism in America RACE. Uh-oh. The R-word. But actually talking about race is one of the most important things to learn how to do. Adapted from the groundbreaking bestseller *Stamped: Racism, Antiracism, and You*, this book takes readers on a journey from present to past and back again. Kids will discover where racist ideas came from, identify how they impact America today, and meet those who have fought racism with antiracism. Along the way, they'll learn how to identify and stamp out racist thoughts in their own lives. Ibram X. Kendi's research, Jason Reynolds's and Sonja

Cherry-Paul's writing, and Rachele Baker's art come together in this vital read, enhanced with a glossary, timeline, and more.

America Penguin

Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

The Indispensable Guide to America's Most Recognizable Symbol Lulu.com

ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME • NEW YORK TIMES BESTSELLER A modern-day classic from Newbery Medalist Jerry Spinelli, this beloved celebration of individuality is now an original movie on Disney+! And don't miss the author's highly anticipated new novel, *Dead Wednesday!* *Stargirl*. From the day she arrives at quiet Mica High in a burst of color and sound, the hallways hum with the murmur of "Stargirl, Stargirl." She captures Leo Borlock's heart with just one smile. She sparks a school-spirit revolution with just one cheer. The students of Mica High are enchanted. At first. Then they turn on her. Stargirl is suddenly shunned for everything that makes her different, and Leo, panicked and desperate with love, urges her to become the very thing that can destroy her: normal. In this celebration of nonconformity, Newbery Medalist Jerry Spinelli weaves a tense, emotional tale about the perils of popularity and the thrill and inspiration of first love. Don't miss the sequel, *Love, Stargirl*, as well as *The Warden's Daughter*, a novel about another girl who can't help but stand out. "Spinelli is a poet of the prepubescent. . . . No writer guides his young characters, and his readers, past these pitfalls and challenges and toward their futures with more compassion." —The New York Times

The Triple Crisis of Western Capitalism Delacorte Press

A tour de force from acclaimed author Alan Gratz (*Prisoner B-3087*), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world. . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America. . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe. . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

A Long Way Gone University Press of Colorado

From the 1960s onward, neoclassical economists have increasingly managed to block the employment of non-neoclassical economists, narrow the economics curriculum offered by universities to students, and made their theory increasingly irrelevant to understanding economic reality. Now, they are even banishing economic history and the history of economic thought from the curriculum. Why has this tragedy happened? At this time of accelerating momentum for radical change in the study of economics, "A Guide to What's Wrong with Economics" comprehensively examines the shortcomings of neoclassical economics and considers a number of alternative formulations. In it, a distinguished list of non-neoclassical economists provide an examination of some of the many worldly and logical gaps in neoclassical economics, its hidden ideological agendas, disregard for the environment, habitual misuse of mathematics and statistics, inability to address the major issues of economic globalization, its ethical cynicism concerning poverty, racism and sexism, and its misrepresentation of economic history. In clear and engaging prose, "A Guide to What's Wrong with Economics" shows how interesting, relevant and exciting economics can be when it is pursued, not as the defense of an antiquated and close-minded system of belief, but as a no-holds-barred inquiry looking for real-world truths. This book is a must-read for all economists and their graduate students, as well as for the general reader.
