Vampire Solstice De.Mo

Renowned economist and author of Big Business Tyler Cowen brings a groundbreaking analysis of capitalism, the job market, and the growing gap between the one percent and minimum wage workers in this follow-up to the New York Times bestseller *The Great Stagnation*. The United States continues to mint more millionaires and billionaires than any country ever. Yet, since the great recession, three quarters of the jobs created here pay only marginally more than minimum wage. Why is there growth only at the top and the bottom? Economist and bestselling author Tyler Cowen explains that high earners are taking ever more advantage of machine intelligence and achieving ever-better results. Meanwhile, nearly every business sector relies less and less on manual labor, and that means a steady, secure life somewhere in the middle—average—is over. In *Average is Over*, Cowen lays out how the new economy works and identifies what workers and entrepreneurs young and old must do to thrive in this radically new economic landscape.

Blue Sky God interprets some new scientific theories with blue sky thinking to bring radical insights into God, Jesus and humanity, drawing also on some deep wells from the past in the writings of the early Christians. In an accessible style, it looks at science research and theories in areas such as quantum physics and consciousness, epigenetics, morphic resonance and the zero point field. From there, seeing God as the compassionate consciousness at the ground of being, it draws together strands to do with unitive consciousness and the Wisdom way of the heart. Throughout, it seeks to encourage an evolution in understanding of the Christian message by reinterpreting much of the theological language and meaning that has become 'orthodoxy' in the West. In doing so, it challenges many of the standard assumptions of Western Christianity. It outlines a spiritual path that includes elements from all of the world's great religions, is not exclusive, and yet has a place of centrality for Jesus the Christ as a Wisdom teacher of the path of transformative love.
